Re: Radio Station KVCI (AM)
Mineola, TX

This is in reference to licensee letter received 9/20/95. Effective 10/2/95. Authority and terms in special temporary authority granted 11/23/93 extended through 1/01/96. Additional time is necessary pending the Commission's action on major change application, File No. 950907AB, to change city of license to Canton.

Re: Radio Station KVCJ-AM
Mineola, TX

This is in reference to your licensee letter dated 7/24/95. Effective 8/17/95. Authority and terms in special temporary authority granted 11/23/93 extended through 10/1/95. As noted in the previous report, construction of the site and testing on the transmitting facilities were completed. Understand current field strength measurements have been taken, but additional time is needed to obtain new standard size graph papers and prepare FCC form 301. The extension of this STA will be contemplated only when the required 301 application is on file with the Commission by the expiration date of this STA.

November 23, 1993

IN REPLY REFER TO:
8910-MB
STOP CODE 1800B2

Canton Broadcasters, Inc.
Radio Station KJMC-AM
P.O. Box 186
Canton, Texas 75103

This letter is in reference to engineering statement submitted 10/27/93. Temporary authority granted to relocate the station from presently authorized site to Geographic coordinates NL: 32° 32' 32" WL: 95° 51' 37" due to loss of authorized site.

Operating power will be 170 watts during daytime hours utilizing a nondirectional mode on Frequency 1510 kHz. If interference complaints are received reduce power further. You are cautioned that proceeding with this authority and any construction incident there to are undertaken entirely at your own risk and that this authority does not in any way prejudice what ever action may be taken with regard to your construction permit when filed. This authority is granted in consideration of your good faith and representation that you will submit a completed and acceptable FCC Form 301 prior to expiration of this authority. The authority granted is subject to the following conditions:

1. Obstruction marking and lighting is none required. The efficiency of the 77.3 degree antenna is 297.7 mV/m at 1 kW.
2. Permittee shall install a type accepted transmitter, or submit application (FCC Form 301) along with data prescribed in Section 73.1660 (b) should non-type accepted transmitter be imposed.
3. Measures shall be taken to protect the public and workers from the exposure to radiofrequency radiation in excess of the American National Standards Institute Guildelines (OST Bulletin No. 65, October 1985)

(26)

This authority expires 2/28/94.

APPENDIX 22

**STATEMENT OF DON WERLINGER
UNDER 28 U.S.C. Section 1746**

I, Don Werlinger am over the age of eighteen, of sound mind and do state upon my oath as follows.

1. I am the President of Chameleon Radio Corporation, licensee of AM Radio station KFCC (formerly KIOX AM), Bay City TX.
2. On or about January 5, 1995, I entered into negotiations with Landrum Enterprises, Inc., licensee of KIOX AM & FM to purchase KIOX-AM. Landrum wanted to sell the AM station but still wished to retain use of the transmitter sit for its own FM operation. As part of the necessary terms of the sale Chamelion, therefore, agreed to purchase the assets of the AM station including the assumptin of the land lease used for the transmitter site but, simultaneously, to lease the transmitter site back to Landrum Enterprises.
3. Chameleon, therefore, did not have use of the transmitter site. In addition, I intended, in any event, to apply for a permanent change of my city of license. For these reasons, I applied for a Special Temporary Authorization (STA) which was granted by the FCC. The opportunity to use the original transmitter site was not afforded Chameleon.
4. Part of Chameleon's application for the STA states that it had lost its transmitter site. That statement was true and there was no intention on my part to evade or misrepresent any facts to the FCC. The site loss was involuntary.
5. Chameleon Radio has developed its program format to serve the various ethnic minorities in the southeastern part of Texas. The groups with programming on the station (through time brokerage arrangements with various ethnic programming sources) include Greek, Indian, Pakistani, Nigerian, Philippine, Iranian, Argentinean, Russian, Vietnamese, Peruvian, Cuban, Hindu, Islamic, Rumanian, and Sri Lanka.
6. KFCC provides an important public service in that it is the only radio outlet to serve these ethnic and foreign language listeners in the south-eastern part of Texas.

AFFIDAVIT OF DON WERLINGER

October 5, 1995

Page 2

7. On August 4, 1995, Chameleon tendered an application before the Federal Communications Commission seeking to make the STA site in Harris County the permanently licensed KFCC site. That application was subsequently given a favorable preliminary review and accepted for filing by the Commission's staff. The application was given a public notice cutoff date of October 6, 1995.
8. Approximately ninety percent of the ethnic listeners served by KFCC at its present location will no longer be able to receive a usable signal should KFCC return to its Bay City location. The remaining ten percent of its present business would not be sufficient for Chameleon to remain on the air and it would be financially ruined.
9. Objections to Chameleon's STA application were filed with the FCC by Salem Radio and by KWHI. Salem Radio has since withdrawn all of its objections. Although KWHI has not formally withdrawn its objection, it has given me verbal assurances it will not oppose Chameleon's application for permanent change of city of license--a change that would produce signal propagation similar to that produced by operations under the present STA while affording additional protection to KWHI. Additionally, irrespective of the KWHI complaint regarding the KFCC STA site, the 300 watt operation of KFCC dramatically reduces previously licensed overlap between the two radio stations.
10. The original power authorized under the STA was 1,000 watts day and 100 watts at night. At that power, a usable signal was available to all of the listeners in Bay City, KFCC's city of license.
11. Because of the objections from Salem Broadcasting and KWHI, the FCC ordered a reduction of power to 300 watts daytime and 50 watts at night.

AFFIDAVIT OF DON WERLINGER

October 5, 1995

Page 3

12. Chameleon complied with the ordered power reduction but because of the lower power, the signal over Bay City became, as a practical matter, unusable.

I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge and belief.

October 5, 1995

APPENDIX 24

HAND DELIVERED

September 11, 1996

Mr. Don Werlinger
Chameleon Radio Corporation
10865 Rockley Road
Houston, Texas 77099

Re: Lease Agreement by and between CHAMELEON RADIO CORPORATION and LANDRUM ENTERPRISES, INC., dated April 20, 1995; and as assigned to GUAJILLO INVESTMENTS, L.L.C. on June 1, 1996.

Dear Mr. Werlinger,

Pursuant to our numerous discussions regarding the subject matter, this letter will serve as an official DEMAND NOTICE regarding the position of Guajillo Investments, L.L.C. with regards to the presence of certain pieces of radio transmitting equipment and personnel of Chameleon.

Not only has the presence of Chameleon personnel and equipment in our studio facilities, been extremely disruptive to our daily business practice, but has also resulted in a severe health hazard to our employees. We have measured and calculated four (4) volts of RF in our lounge/break area coming from the Chameleon transmitter. This will not be tolerated without legal repercussions. In addition to the aforementioned danger, the same transmitter has caused unprecedented problems in our production equipment and phone lines. This will also not be tolerated.

I am not aware of, nor do I care about, whatever problems your company might have encountered with the FCC. I am a legal entity, attempting to conduct business within the guidelines established by law. I have a legal and binding lease agreement with your company which does not give you, or anyone else, the right to conduct your business on our leased property. Our agreement specifically states that Guajillo Investments, is the only entity that can conduct business on the 26 acre site, which includes our studio facilities.

Date 2-24-97

Mr. Werlinger, please understand my position. Your companies presence here has resulted in technical interference, disruptive practices and now, a serious health hazard. I intend to take this matter up in a court of law immediately, if I do not hear from you by return certified mail. I trust this letter will get your immediate attention.

Sincerely,

A handwritten signature in black ink, appearing to read "S. Kirk", with a horizontal line drawn underneath.

Steven M. Kirk
President & General Manager
Guajillo Investments, L.L.C.
